For Your Consideration:

Ready or not, here comes summer. Some quick things to consider as you prepare to hold your orientation meetings this weekend.

1) Last month the board in accordance with the By-Laws approved the [Provincetown YC](#) as a full and equal member of SM Sailing. Congratulations and welcome aboard.

2) Cumming Cup deadline for registration is Tuesday June 27th (4 days from now). The link is below in Blue.

2) Deadline for the Training Grant Program is July 15th. There is money to be recouped for training by member clubs. Don't leave it sitting on the table. The link is below in Red.

3) Electric Shock Drowning. Here is a report from SMSA VP John Field this week. If your club has power on its docks, you need to read this.

"You may or may not have heard, there was an incident on Lake Erie this weekend in which a young man died due to electricity in the water near a docking area. Being a current and topical issue, this has raised concerns about the same for our launching operations at our junior events.

I was contacted, as Area E Coordinator, with the question of how we best address this. One of our foundations in the Area, the Edgewater Youth Sailing Foundation, has offered to purchase the necessary warning devices and share them for use at all of our events within I-LYA (one of our RSAs)

I was hoping that, perhaps others may have already addressed this issue and you might be aware of what it is a recommended course of action in this regard. [Here's the system that they're looking at purchasing](#): Any advice or guidance you can offer would be greatly appreciated. They want to act on this ASAP - before the next event."
